Acrylic Solid Surface has come a long way indeed. Gone is the 'look and feel' of plastic. With the myriad of products currently on the market, each has its own unique colours and patterns, offering customers a nearly unending array of choices. Consumers, Designers & Contractors are now rushing back to Acrylic Solid Surface after the frustrations and high maintenance of stone.

If you're looking for a product with all the benefits as well as the look & feel of stone without all the downsides – welcome back to Acrylic Solid Surface.

BENEFITS OF ACRYLIC SOLID SURFACE

- ✓ Quality Image
- ✓ Superior Scratch Resistance
- ✓ Superior Heat Resistance
